

## Custom Cut PVC Covers and Merchandising Products

**W**ith over thirty years of experience in the plastic film converting industry, Hop offers In-house plastic roll slitting, sheeting, roll rewinding and guillotine cutting of PET films, PVC films, polypropylene films & synthetic papers. With our state of the art equipment and knowledgeable staff, we can satisfy any plastic converting need with our industry leading turn around times.

1- Hop Industries offers: **clear covers**, **tinted covers** as well as **matte/suede**, **matte/gloss** and **matte/matte**. We offer custom finishing services such as 19 ring or velo punching and 3 hole punching as well as round cornering and tissue interleaving. Our high quality PVC clear covers are available in 5mil, 7mil, 10 mil, 15 mil, 20 mil & 30 mil. All of our covers are lightly dusted to protect from scratching. We can custom cut to any size including millimeters if needed.

2- Hop Industries is an industry leader in the production of merchandising tools available in different thickness, widths, lengths and custom colors. We offer a large variety of **merchandising tools**. **Label Backers** make price changing easy with no adhesive residue left behind. **Restocking Tags** can be produced with 1 or more holes and with a slit if needed to hold labels on a pegboard, wire baskets, racks or slatwalls.

**Channel Molding** rolls are perfect for covering a larger display area. They are also commonly used in slatwall displays.

**Shelf Strips** are a great way to hide a bare metal shelf channel and can be custom printed to you exact specifications.

3- Hop Industries **Print Sleeves** are made of a 10 mil rigid PVC. We offer 4 different types of sleeves:

Our **Economy Standard** with a clear sewn board and removable low pH backing board. **Economy Archival Sleeves** are stitched with either a black or white border and comes with a 2mm corrugated removable plastic

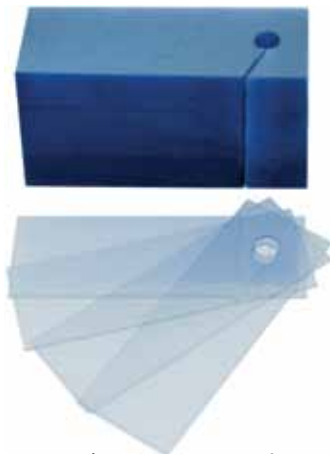

insert board with archival quality. **Ultimate Standard Sleeves** come with a double stitched with vinyl edging backing board that is sewn in to ensure a bend resistance.

**Ultimate Archival Sleeves** come with a stitched black polypropylene edging and a sewn in 2 mm corrugated plastic insert board with archival quality. All of our sleeves can be custom cut to any size.
